User Manual of VeryPDF PDF to Word Converter

Brief Introduction of PDF to Word Converter

VeryPDF PDF to Word Converter can edit and reuse PDF contents by exporting the text, images and other contents from PDF files into Microsoft Word (DOC / DOCX) and Rich Text Format (RTF). The text, images, fonts and layouts of the original PDF files will be exactly preserved in the converted Word documents. VeryPDF PDF to Word has its own PDF interpreter, so it does **NOT** require Adobe Acrobat, Acrobat Reader or any other third-party PDF reader or maker.

System Requirement: Microsoft Windows 98/ME/NT/2000/XP/2003/Vista/7/2008 of both 32-bit and 64-bit.
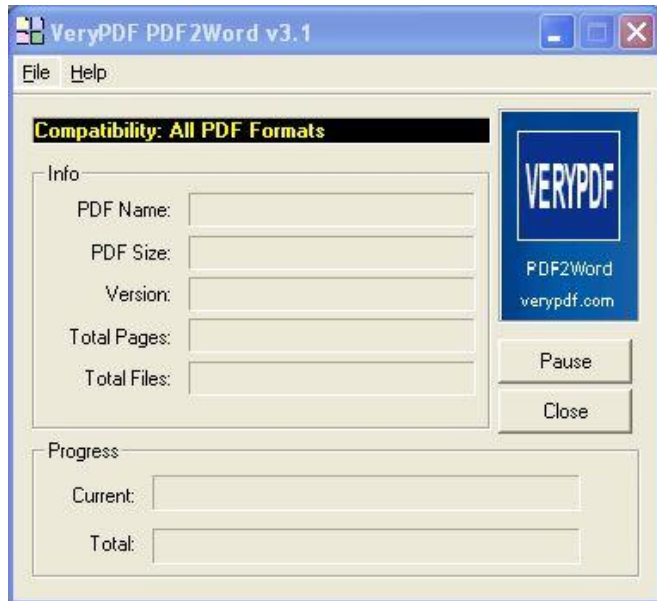

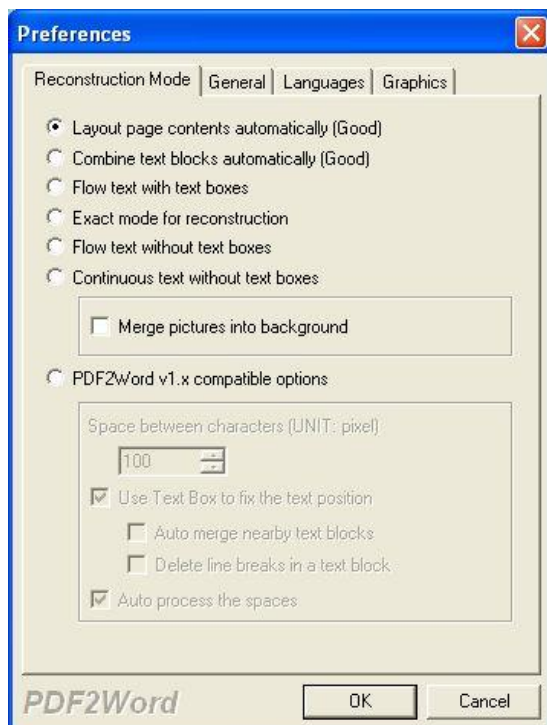

How to use

Download

- [Download VeryPDF PDF to Word Converter](#) and install it to your computer.
- After downloading, there will be an exe file. Double click it and install it following installation message.
- If installation is successful, there will be an icon on the desktop. Simply click it then you can launch this software.

Convert PDF to word by GUI Version

- The following snapshot is from the software interface.

- Click **File** at the left top corner, and then go to **Open** to browser folder. Or you can simply drag files from its containing folder to software interface.
- Then the menu option will show up automatically. The following snapshot is from the software menu option **Reconstruction Mode tab**.

- In this tab, you can choose in which mode to convert PDF to word. **Layout page contents automatically** option will arrange the layout according to the content automatically.
- **Combine text blocks automatically** option will combine text part into block automatically
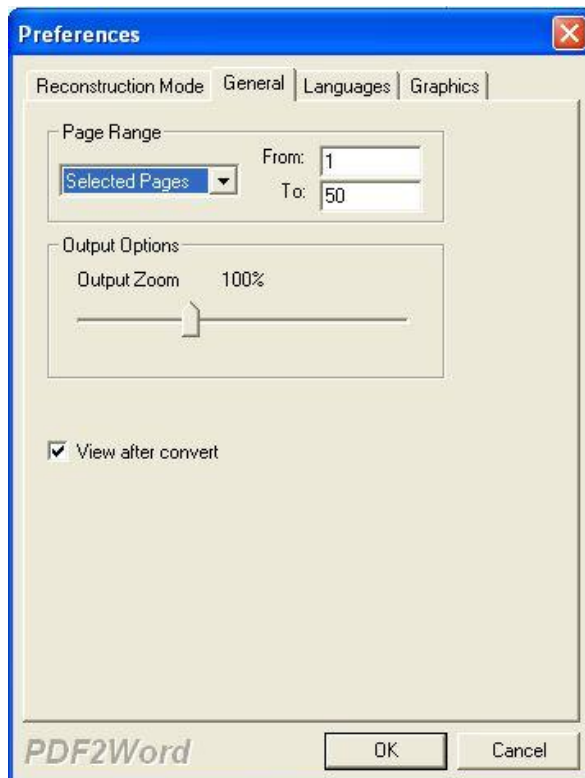

according to the content.

- **Flow text with text boxes** option is good for reediting and re-arrange the content layout.
- **Extract mode for reconstruction** option is good when you need to re-arrange the layout.
- **Merge pictures into background** option can help you use the image of PDF as the background of the word file.
- And you can control the word space by this software.

After finish setting, please click the button OK.
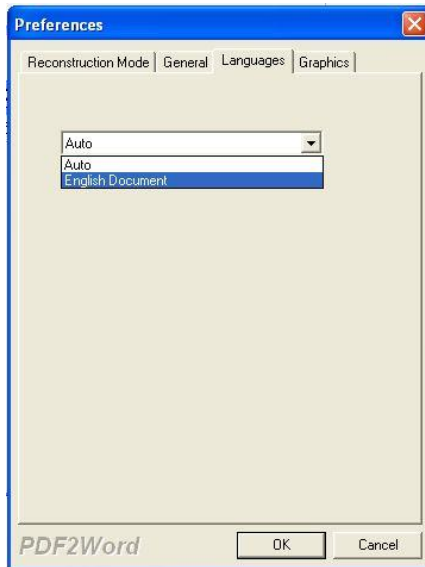

General Menu Tab

- Please look at details from the following snapshot.

- Here you can choose the Page Range of input PDF file.
- Output zoom rate.
- If you need to check the output word file after conversion, please click that operation.
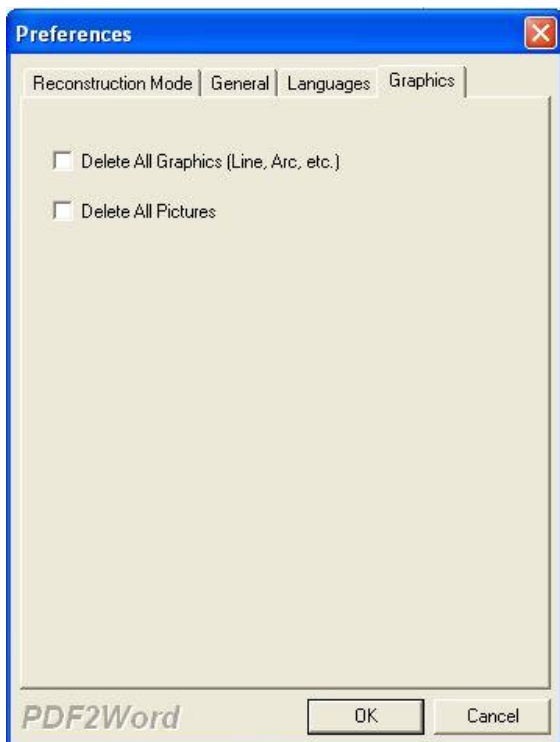

Language Tab

- Check its options from the following snapshot.

- In this tab, you can set that let the software detect languages automatically or set English.

Graphics Tab
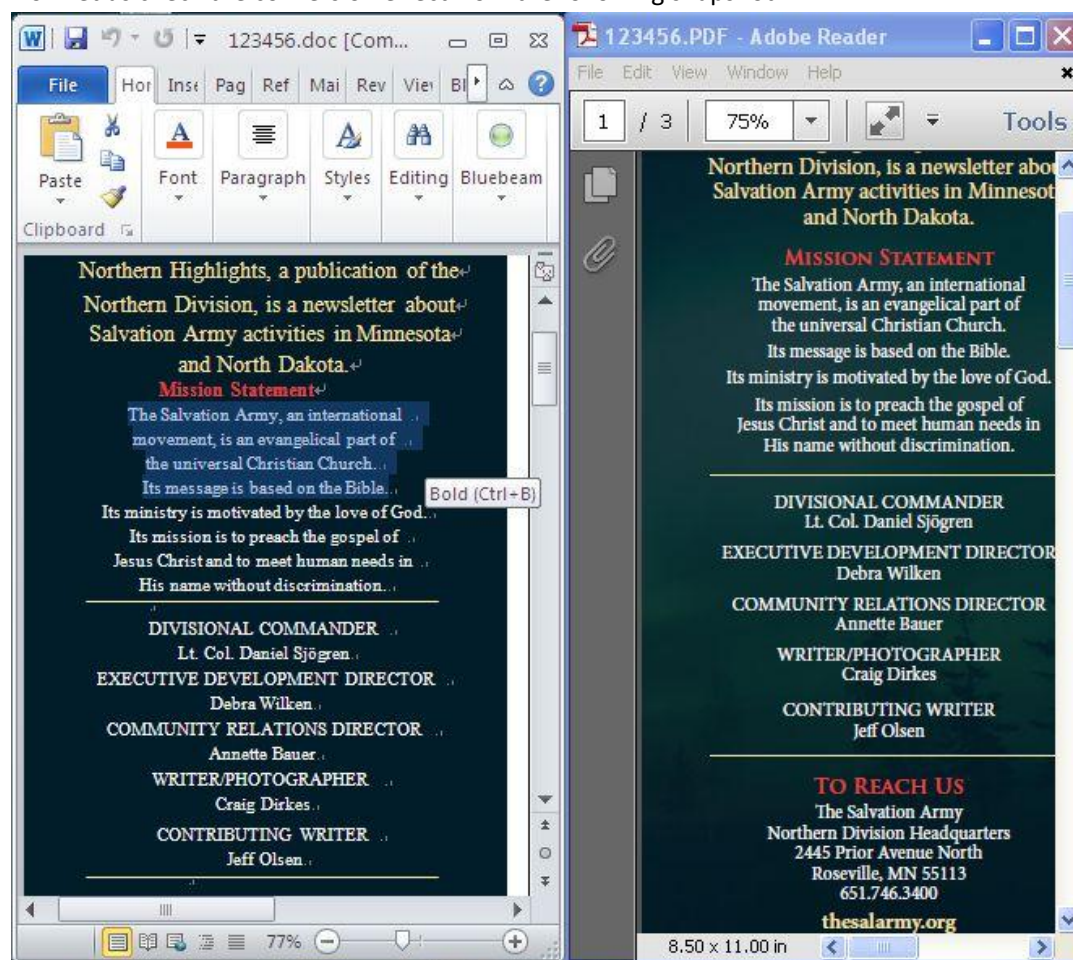

- Snapshot of Graphics tab.

- Here you can choose to delete all Graphics or delete all pictures.
- If you have not specified the output folder, the output word file will be saved with the input PDF file.

If you have finish setting part, click button OK then the conversion will be run at once.

Conversion Effect

Now let us check the conversion effect from the following snapshot.
